## **#MARCH AGAINST REVENGE PORN**

## **AIDING THE MARGINALIZED**

March Against Revenge Porn believes in principles of intersectionality and prioritizes uplifting the stories of victims and survivors who identify as women, gender non-conforming, transgender, queer, POC, disabled, and living with a mental illness.

In 2018, we marched in the Boston Pride Parade to bring awareness to the 17% of LGB individuals victimized by revenge porn.

## **WHAT WE DO**

Founded in 2016 by activist Leah Juliatt, March Against Revenge Porn is an international digital advocacy organization fighting against the abhorrent practice of image abuse and cyber sexual exploitation through federal lobbying, global organizing, media advocacy, victim support services, educational outreach, nationwide protest marches, and a legal defense fund.
